PROFILE

After a cursus at 19 (42 network) and a rewarding internship in software development at Niboo, I am aiming at a company that could not only trust me but also allow me to grow as a developer. With an overflowing curiosity and a pronounced taste for learning, I wish to work mainly with React.js or Vue.js for the front-end. You can find my portfolio [here](#).

WORK EXPERIENCE

Intern Software Developer

April 2020- August 2020 | Niboo

It was a very rewarding first professional experience. The languages used were python and javascript, we also used other tools such as Odoo ERP for project management (tasks, clients...) or github for decentralized version management. The goal was to develop customized solutions for the customer.

EDUCATION

2020 – EPFC

English Course (A2)

2018- 2020 | 19 Coding School

Computer Programming

2017 - 2018 | ESI

Business Computing
