Front-End Developer

PROFIL

I have a real interest in building fast, responsive, and intuitive web applications by using the best and modern practices. I will provide high-quality code and the satisfaction of my clients. That is why I spend my spare time improving my programming skills.

WORK EXPERIENCE

Intern Software Developer
April 2020- August 2020 | Niboo

It was a very rewarding first professional experience. The languages used were python and javascript, we also used other tools such as Odoo ERP for project management (tasks, clients…) or github for decentralized version management. I had some front-end tasks with bootstrap or jquery like landing page, forms, responsive design. The goal was to develop customized solutions for the customer.

EDUCATION

2020 – EPFC
English Course (A2)

2018- 2020 | 19 Coding School
Computer Programming

2017 - 2018 | ESI
Business Computing
